# . . . with State Editions

These Chain Store Guide STATE EDITIONS will provide your sales force with vital selling information in their areas: New business situations, names of the right person to call on at their accounts . . . and companies who have entered the market in the past 12 months.

State Editions will let your sales force take advantage of the same facts — on a local, city-by-city basis — that you have in your national directory of the total market. Each page in the State Edition is exactly as it appears in the complete "guide" — and includes an alphabetical company index that shows headquarters locations within that state.
